

NEWSLETTER #5
April 12, 2022

As it stands today, the 2022 St Albert Soap Box Derby is **SOLD OUT**. Soap Box Derby has registrations on a wait list and will continue to take new registrations in case registered racers decide not to race. Refunds if required will be issued.

Multiple different views are being taken on Race Day operations to so see if additional racers could be accommodated – NO promises. Volunteer response to fill the Race Day Crew needs will be a big factor **if** any changes to the 100 Racers are to happen.

You can see the Race Day Crew volunteer descriptions on the StAlbertSoapBoxDerby.ca website [here](#) and continue on to sign up or go to Race Day Crew [sign up](#) directly.

The first Info Session was held on April 9 to an over full house at Fountain Tire Race HQ. There was a short “show and tell” where a base cart was used to discuss the steps to build and maintain your racer. Key points to mentioned included cart weight (less than 100lbs or 45.35kg), cart dimensions max of 53 inches (or 134.6cm) in length, ways to toe the wheels to minimize wobble (critical) and tips on build tips for a fun race day. Thanks for all the good questions during the session and discussions afterwards. I would believe all those who attended heard some hints and tips and many took pictures to help with their build. The special needs two person racer was present and now is in the Fountain Tire Race HQ display.

As you are building your cart, please refer to the [Resources tab](#) on the website. **Rules and Regulations , Build Kit update and Brake Kit information should be reviewed before building.**

In closing, help make YOUR Soap Box a success and have fun by volunteering today.
